the helping hand. "Not themselves like good help teach them by kind of example.

Many Important Problems Solved

Various State Experiment Stations Conducting Farm Projects.

(Prepared by the United States Department of Agriculture.)

Many important problems in agriculture are being gradually solved by the experiment stations and the gift of knowledge given to the public. During the year 1924-25 the various state experiment stations were conducting projects dealing with 5,539 different phases of agriculture, an average of 110 projects per station. In some instances projects are finished in one year, but in many cases several years may be required to complete the investigations and make the results applicable to practice.

Wide Range of Subjects.

A classified list of the different projects now being carried on by the stations has been prepared by the United States Department of Agriculture, which shows the wide range of subject matter covered by the experimental work.

Projects dealing with field crops lead in number, with a total of 1,517. Of the field crops under study, corn leads with 170 or more projects, wheat follows with 161, potatoes 152, cotton 151, alfalfa, 82, oats 81, and soy beans 63.

Horticulture comes second with 832 projects, of which over 400 deal with orchard fruits, the leading fruit being apples 115 and peaches 45; 135 in small fruits; 375 with vegetables, the leading representative of which is tomatoes 94; 65 with ornamentals; and 50 with nuts, the largest representative of which are pears 20 and walnuts 13.

The third largest group is animal husbandry with 723 projects, including among others poultry 245, dairy cattle 161, swine 149, sheep and goats 51, beef cattle 47, and horses and mules 12.

Plant Pathology.

Plant pathology is another large group, having 492 projects, of which 47 are in grain diseases.

Projects in the group entomology number 723, of which 315 relate to insects and 408 to other insects.

In addition to the projects carried on at the state stations, the stations maintained by the department at Alaska, Florida, Porto Rico, Guam, and the Virgin Islands have 120 projects, which increases the total to 8,739.

Additional Protein for Dairy Cows Profitable

Cheap feed prices and relatively good butter prices will encourage the dairymen to feed heavier this year than last when the conditions were exactly reversed.

In connection with heavier feeding it is well to make a special study of economical feeding. As a general rule one of the chief needs of the ration is additional protein.

Additional protein for dairy cattle is furnished either by some good form of legume hay or by oil meal, cotton seed meal, gluten feed, wheat bran and cracked soy beans, or by a combination of both. Cows which are heavy producers can make a profitable use of a larger percentage of these feeds in a ration than cows which are low producers. In other words, it is often practical to feed from two to three pounds of high protein concentrate to a five or six gallon cow when it is not practical to buy any additional feed to balance up the ration for a two or three gallon cow. The reason for the difference is that the high producers will increase their production in direct proportion to the added protein.

A question which is often asked is, "What of these feeds shall I have?" The experiment station tests show that little difference. Therefore it is hardly a question of available supply and relative cost.

Compare Soy Beans With Tankage to Fatten Hogs

In comparing a series of studies on the value of various tankage and soy beans as feed for hogs, it was found that soy beans fed at the rate of one bushel per 100 pounds of live weight of the hog, increased the weight of the hog 100 pounds more than the tankage fed at the same rate. The cost of the soy beans was 100 cents per bushel and the cost of the tankage was 50 cents per bushel. The cost of the soy beans was 100 cents per bushel and the cost of the tankage was 50 cents per bushel.

These results show that a pound of soy beans is worth about a pound of tankage in the ration of a hog. The cost of the soy beans was 100 cents per bushel and the cost of the tankage was 50 cents per bushel.

Quarters for Pullet

The young poultry flock should be housed in quarters which are clean, dry, and well ventilated. The quarters should be built of wood, and the floor should be covered with straw or sawdust. The quarters should be built of wood, and the floor should be covered with straw or sawdust.

BETHEL AND VICINITY

(Continued from page 1)

Mrs. W. C. Garey is quite ill with pneumonia.

Miss Helen Cushman spent the week end in Enos, N. H.

Mrs. T. B. Burk spent a few days in Gorham, N. H., last week.

Mrs. Abigail Morgan, who has been ill, is able to be out again.

Mrs. D. H. Spearin has been the guest of relatives in Portland.

Mrs. Arthur Belack, who has been quite ill, is somewhat improved.

Mrs. Perley Andrews and Mrs. Harry Inman were in Lewiston, Friday.

Mrs. E. E. Donahue is suffering with an attack of the asthma and a cold.

Mr. and Mrs. Perley Wing of Bryant's Pond are guests of Mr. C. F. Morgan.

Mr. Fred Clark, who has been confined to the house with a severe cold, is improving.

Mr. E. H. Smith was the guest of relatives at Scarborough a few days last week.

Mr. Fred D. Aubrey of Presque Isle visited Dr. and Mrs. R. B. Tibbitts a few days last week.

The children of Mr. and Mrs. S. S. Greenleaf, also Miss Mabel Herrick and all with the measles.

Mr. and Mrs. E. E. Bennett, and Mrs. A. D. Smith attended Pomona Grange at West Paris, Tuesday.

Mrs. Henry Barker, who was called to Newry by the death of Mrs. W. W. Barker, has returned home.

Miss Mabel Baker returned from Gorham, N. H., Monday, where she was called by the illness of her grandmother.

Mr. and Mrs. Helen Gray and little daughter, Elizabeth, were week end guests of Mr. and Mrs. A. D. Perkins.

Mr. and Mrs. Ava Burgess and children left Friday for Worcester, Mass., after spending several months in town.

Mrs. Beatrice Martin of West Paris was the guest of Mrs. D. M. Porter last week and attended the Young People's conference.

A very pleasant evening was enjoyed at the meeting of Mt. Abram Lodge, Friday, with the members of Sunday Rebekah Lodge as guests. The following program was carried out:

Herrick's Orchestra
Rev. C. Easternhouse
Forest solo
Mrs. Arthur Herrick
Albert Silver
Wiano solo
Rev. C. Easternhouse
Herrick's Orchestra

WEST BETHEL

Mrs. Estelle Goodridge, who has been in Portland for two weeks, returned home Sunday.

Mr. Ingham is substituting at the G. T. R. station for a time.

Mrs. Charles McIntosh was in Lewiston last week.

Mr. and Mrs. W. H. Mason were guests of Mr. and Mrs. E. C. Mills at Marsh, Sunday.

Mrs. E. B. Whitcomb was in Lewiston, Saturday.

Mr. and Mrs. A. I. Bennett were in Bethel, Sunday.

The Marshall Adams Company is running on a tight schedule.

MIDDLE INTERVALE ROAD

CANTON

A profitable meeting of the Farm Bureau of Canton was held Friday at the Community Hall. The subject of the meeting was "Foundation Waist Patterns." The home demonstrator, Miss Page, and the clothing project leader, Mrs. Gladys Stevens, were present.

Mr. and Mrs. Edward L. Goding are receiving congratulations on the birth of a son, Friday.

Mrs. S. T. Hayden, Mrs. Julia Adams and Mr. and Mrs. Wallace Conant attended the funeral of Everett Paine of Jay, Saturday. Mr. Paine was a former resident of Canton Mountain.

George Lavorgna has gone to Bradford, Penn., where he will be employed by his brother, Lawrence Lavorgna.

Mr. and Mrs. Fred Parsons of King field have been visiting her mother, Mrs. Oscar E. Hardy, and sisters, Mrs. Jesse Bryant and Mrs. Leon Dunn.

Miss Ruth Taylor of Pittsburg, Penn., is a guest of her parents, Rev. and Mrs. Harry Taylor, and family.

Supl. Ray Robinson has been visiting his sister, Mrs. Hugh Blodgett, Elizabeth, N. J.

Arthur Marston has been ill with the "flu."

After the devotional exercises of the U. P. C. U., Saturday evening, a reception was given to the Senior class of Canton High School at 7:30 o'clock.

An enjoyable evening was spent in playing games, among them being a potato race, a music test, the one guessing the most of the opening bars of 15 musical selections, being won by Willard Dargis, with Prim M. C. Walz, second; drawing a pig on the blackboard blindfolded created much fun, and the prize for the best one was awarded to Herbert Ellis.

Another game was the introduction to the Count and Counters. As the 15th birthday anniversary of Miss Martha Meyer fell on this day she was given a little surprise when after all the young people had marched into the church, the lights were turned out and she was led in blindfolded and after a while had been extended her birthday cake and she found herself standing before a beautiful large birthday cake with fifteen candles.

Mr. and Mrs. Fredland Abbott have gone to Rumford Center to visit his sister, Mrs. H. Brooks Statten, and family.

Miss Mildred Pease has been spending a few days in Lewiston.

Mrs. Hattie Stevens of Marsh has been a guest of Mrs. Rose Becknell.

Merrell, the little son of Mr. and Mrs. Donald Chamberlain, who was operated on for adenoids and tonsils, is getting along nicely.

Mrs. Harry Douglas has been visiting her daughter, Mrs. James Brennan of Auburn.

Miss Abbie G. Becknell is visiting her nephew, J. Clyde Becknell, and family of Sanford.

Miss Lois Davis of Jackson, N. H., has been a guest of Mrs. Arthur J. Foster. Mrs. Martha Blackwell returned home with her for the remainder of the winter.

Arthur Newton has been visiting his mother in Dixfield.

The little child of Mr. and Mrs. Edgar White is ill with measles.

Mr. and Mrs. Louis Childs of Gilbertville are receiving congratulations on the birth of a son.

Arthur Newman of Auburn was in town Sunday.

J. K. Porhan and S. T. Hayden attended the meeting and banquet of the foremen and field men of the Portland Packing Company at Portland last week.

The annual meeting of the Pioneer Campers was held on Saturday evening, Feb. 27th, at Hotel Buckminster, Bangor, Me. A six o'clock banquet was served in the main dining hall to 115 guests. As the from Boston and vicinity there were present guests from Portland, Providence, R. I., Fall River and Springfield, Mass., New York, Philadelphia and New Jersey. There present representing Pioneer Camp, Bangor, were Mrs. Mabel Barker and daughter, Miss Ruth Richardson, and Miss Mary S. Richardson.

The ball was kept going until 11 o'clock, and the guests were then taken to the ball room, where a large and green, decorated the floor.

A "take off" on the story of a man who was in the hospital for a long time, was the subject of a comedy sketch.

khana, music and dancing, made up the evening's program. Music for the occasion was furnished by an excellent four piece orchestra. The camp singing was led by Mr. Charles Bourne of Melrose, Mass., assisted at the piano by Mr. Harold Deplitch of Fall River, Mass.

The committee in charge were Charles E. Buck of Belmont, Mass., chairman; Miss Elele V. Karlson of Boston, vice chairman; Miss Louise MacDonald, Miss Ruth Richardson, Rev. Douglas Horton, Miss Emily Woodward and Miss Gertrude Whillson.

GILEAD

Mrs. Florence Hicks of South Paris is assisting in the home of Mr. H. L. Watson.

Mrs. Lena Heath and children of Bethel were guests of relatives in town last Sunday.

STATE OF MAINE

To all persons interested in either of the Estates hereinafter named.

At a Probate Court, held at Paris, in and for the County of Oxford, on the third Tuesday of February, in the year of our Lord one thousand nine hundred and twenty-six. The following matters having been presented for the action thereupon hereinafter indicated, it is hereby ORDERED:

That notice thereof be given to all persons interested, by causing a copy of this order to be published three weeks successively in the Oxford County Citizen, a newspaper published at Bethel, in said County, that they may appear at a Probate Court to be held at said Paris, on the third Tuesday of March, A. D. 1926, at 2 o'clock in the forenoon, and be heard thereon if they see cause.

Nelson R. Springer late of Pasadena, California, deceased; copy of will and petition for probate thereof and the appointment of Hattie E. Springer as executrix of the same without bond as expressed in said will presented by said Hattie E. Springer, the executrix therein named.

Richard M. Williamson late of Newry, deceased; first account presented for allowance by Harry A. Williamson, executor.

Howard J. Hutchins late of Bethel, deceased; first account presented for allowance by Lincoln Cummings, administrator.

Lola B. Hutchins late of Bethel, deceased; petition for order to distribute balance remaining in his hands presented by Lincoln Cummings, administrator.

Richard L. Williamson late of Newry, deceased; petition for determination of inheritance tax presented by Harry A. Williamson, executor.

Howard J. Hutchins late of Bethel, deceased; petition for order to distribute balance remaining in his hands presented by Lincoln Cummings, administrator.

Lola B. Hutchins late of Bethel, deceased; petition for order to distribute balance remaining in his hands presented by Lincoln Cummings, administrator.

Richard L. Williamson late of Newry, deceased; first account presented for allowance by Harry A. Williamson, executor.

Dolly K. Hastings late of Bethel, deceased; petition for order to distribute balance remaining in his hands presented by Marshall R. Hastings, administrator.

Witness, Henry H. Hastings, Judge of said Court at Paris this third Tuesday of February in the year of our Lord one thousand nine hundred and twenty-six.

ALBERT D. PARK, Register.

NOTICE

The subscriber hereby gives notice that he has been duly appointed administrator of the estate of Allen R. Brooks late of Andover in the County of Oxford, deceased, and given bonds as the law directs. All persons having demands against the estate of said deceased are desired to present the same for settlement, and all indebted thereto are requested to make payment immediately.

ALBERT P. BROOKS, Bethel, Maine.

February 17th, 1926.

3431

Walter Bartlett of Bethel was a recent visitor in town.

Mr. and Mrs. Oliver Garey have returned to their home in Auburn after spending a week with her parents, Mr. and Mrs. Charles Cole.

Mrs. George Lessard returned home Sunday from the hospital in Lewiston. Mr. and Mrs. George Belmont have returned from their wedding trip and are stopping at G. L. Tracy's.

Mrs. Mabel Tracy and daughter, Vera, have returned home from Bartlett, N. H., where they have been visiting relatives.

Rupert Potter, who has been visiting his grandparents, Mr. and Mrs.

Charles Cole, has returned to his home in Strong.

Mrs. Ethel Peppau has completed her duties at H. L. Watson's.

There was a social dance at the town hall last Saturday evening.

John Woods was called to Mexico, Missouri, last week by the sudden death of his father.

Mrs. Gertrude Emery has completed her duties at Leighton's boarding house and gone to Percy, N. H.

Cyril Foster of Gorham, N. H., was a recent visitor in town.

Mr. and Mrs. Harry Keazer of Crystal, N. H., have employment at Leighton's boarding house.

DADDY'S EVENING FAIRY TALE

Mary Graham Bonner

RACCOON'S INTELLIGENCE

"We've been asked to tell our story," said Daddy Raccoon. "Many people may know it, or they may know what we have to tell them."

"But perhaps they won't mind hearing our story again, or rather hearing of our ways once more."

"We won't tell our story in just the same way, and I have heard people say the same thing more than once—in perhaps a slightly different way."

"For instance I have heard one little girl say five times now that she loved candy."

"Well, we are supposed to be intelligent."

"Supposed to be?" repeated Mother Raccoon. "Why Daddy Raccoon, what makes you say such a thing?"

"We are intelligent. We most certainly are. We're not simply 'supposed' to be intelligent. We are intelligent."

"Ah," said Daddy Raccoon, "you didn't let me finish what I had to say."

"That is different," said Mother Raccoon. "I really should have known enough to let you finish."

"I should have known, too, that you were not through speaking."

"Dear me, if I say such things in a hurry again I will feel that I am not intelligent after all."

"I might have known you weren't through speaking," she ended.

"Yes, what I was going to say—part of which I did say—was that we were supposed to be intelligent, and what I was about to add was that we were and are intelligent."

"Mother Raccoon looked her agreement."

"There are some creatures," Daddy Raccoon continued, "who are supposed to be what they are not."

"Some are supposed to be quite bad when there is a great deal of good in them."

"Some are supposed to be very good and there is really a lot of meanness in them."

"Some are supposed to be very clever and they really aren't at all."

"They have only been able to fool others for a time."

"But it is nice to be considered intelligent and bright and to feel that it is all quite true."

"For we used to be considered bright when we lived in the forests."

"But we didn't feel sure of it until

"That's Good," Said the Little Raccoon.

we heard the keeper telling some people that we were very intelligent."

"Then you and I and all of us felt it surely was true—just as we had thought and hoped for a long time."

"If the keeper says so, with all his knowledge about animals in general and us in particular, it must be so."

"That's good," said the little Raccoon.

They were sitting upon the dead branches of a very tall tree.

"We like corn and we had nice corn at summer, and the keeper says we will have it once more the coming summer."

"It's nice to have a treat like that in the summer."

"There," said Daddy Raccoon dejectedly, "that shows intelligence."

"When we are free we love to hunt for it, and then we can have it for the summer and then we can have it for the winter. We are always free in the zoo."

"They never hunt anywhere else, do they have the good taste for corn?"

"But they aren't intelligent that they can't care for corn as much as we do of corn (I find in them) is a bit of their intelligence."

"But the keeper knew that it was not their love of corn which made them intelligent and bright. He caught them highly of their intelligence."

Something Warning

With the thermometer just as cold as the morning last winter, a Chicago man who directs the operation of a line of newshoes considered it a good idea to give the boys some food to help them combat the cold. So he took them all into a restaurant.

"Now order what you want," he told them, "so you'll be able to keep warm when you go out on the street."

And every mother's son of them ordered ice cream. Somebody's Marx.

Has Anyone Tried?

High School—Have you read "To a Mouse?"

Grade School—No, how do you get to Hater?

ARE YOU ALL RUN DOWN?

Many Bethel Folks Have Felt That Way.

Feel all out of sorts?
Tired, aching, blue, irritable?
Back lame and stiff?
It may be the story of weak kidneys!
Of toxic poisons circulating about
Upsetting blood and nerves.
There's a way to feel right again.
Help your weakened kidneys with
Doan's Pills—a stimulant diuretic.
Doan's are recommended by many
Bethel people:
Wesley Wheeler, Chapman St., Bethel, says: "Heavy lifting put a strain on me and caused kidney trouble. My back was lame and stiff mornings and I could hardly bend over to pick up anything. A steady dull ache through my back was mighty trying and at times I couldn't stand my own weight in walking around. My kidneys bothered me, too. Three boxes of Doan's Pills, from Bosserman's Drug Store, did me of the trouble."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Wheeler had. Foster-McBarn Co. Mfrs., Buffalo, N. Y.

HOW MAINE DISPOSES OF HER POTATO CROP

From the potato crop of 1924 the 32 states that produce the late crop shipped 292,719 cars. Of this total Maine shipped 14,329 cars, or 4.9 per cent. This was 50.1 per cent more than her nearest competitor, Minnesota, shipped. Beginning with the crop of 1919 the part of her total crop which Maine has shipped has ranged from a low of 6.9 per cent from the crop of 1924 to a high of 8.1 per cent from the crop of 1919.

The per cent shipped varies with the controlling influences mentioned here. Since 1919 it has ranged from a low of 6.9 per cent from a 1924 crop to a high of 8.1 per cent from the 1919 crop and has averaged 7.19 per cent. The principal channels of disposal are a combination of local population and local industry in shipments, fed to live stock, made into starch, and for the most part exported in the form of flour, starch and other products. Following is the complete disposal of the Maine crop of 1924, as figured from all available sources:

Channel of disposal	Per cent total crop
Sales	73.3
Farm consumption	1.4
Fed to livestock	4.6
Made into starch	7.6
Need for 1925	5.0
Shrinkage in bin	6.1
Total	100.0

The last four classes in each table are subtracted and the per cent check very closely, while the first two in each column are the most important and agree closely.

To a detailed information source as the Maine Department of Agriculture, from the estimates of production from the crop and the disposal of the crop in Maine and the United States, percentage prices for table and stock potatoes, and demand and prices for the crop it is possible to forecast the amount that will go out through the channels of disposal in the crop. The total production of the crop in Maine is estimated to be 1,000,000 bushels, and the total disposal of the crop is estimated to be 1,000,000 bushels.

The amount available for shipment to 300 per cent of total production is shipped from the 1924 crop over 1,000,000 bushels, and the same percentage from the 1925 crop would mean 1,000,000 bushels.

The Method of packaging has a great effect on the value of the crop. The crop is packed in a variety of ways, and the value of the crop is affected by the method of packaging. The crop is packed in a variety of ways, and the value of the crop is affected by the method of packaging.

Women, read the Howsholt page in the Boston Daily and Sunday Globe. The Boston Globe's Howsholt Department is the talk of all New England.

cars. Up to February 20, 1926, a total of 24,791 cars were reported as shipped leaving approximately 13,769 yet to go, according to the above estimate.
V. A. Sanders, Statistician.

GOOD HEALTH NECESSARY

Many Busy Women Owe Their Health to Lydia E. Pinkham's Vegetable Compound

Fifty years ago there were few occupations for women. Some taught school, some did housework, some found work to do at home and a few took up nursing. Today there are very few occupations not open to women. Today they work in factories with hundreds of other women and girls. There are also women architects, lawyers, dentists, executives, and legislators. But all too often a woman wins her economic independence at the cost of her health.

Mrs. Elizabeth Chamberlain who works in the General factory making overalls writes that she got "wonderful results" from taking Lydia E. Pinkham's Vegetable Compound. Mrs. Chamberlain lives at 619 Monmouth St., Trenton, N. J. She recommends the Vegetable Compound to her friends in the factory and will gladly answer any letters she gets from women asking about it.

If Lydia E. Pinkham's Vegetable Compound has helped other women, why shouldn't it help you?

American Wives Will Hardly Believe This

Mrs. Helen Yamato, the young Japanese woman who made a sensational debut in French letters recently with her "Memoirs" translated into English by Mrs. de la Roche, is a native of Japan.

Mrs. Yamato told the recent post-war of the Japanese woman who is far less emancipated than European women. She told her husband that she had to work hard to get her education and to get her husband to support her.

She said that she had to work hard to get her education and to get her husband to support her. She said that she had to work hard to get her education and to get her husband to support her.

SIMPLE FROCKS FOR SPRING; SUMPTUOUS COSTUME BLOUSE

As if to accent their gay patterns by way of contrast, many of the new stylish silk print frocks are detailed with solid colored borders and trimmings. This idea should make definite appeal to the home dressmaker, for it is a simple way of gaining much effectiveness. This popular fabric combination particularly lends itself to the designing of the modish long sleeve.

The model pictured owes its attractiveness to the unique cascade trimming of the silk print bordered with a silk of solid coloring. This silk, which is of American origin, has an interesting bit of history in that the artist who designed it took for his in-

spiration, is the costume blouse as styled for the spring season. It would seem as if genius had drawn upon all the resources of the world of art and handicraft for "ideas" to appropriate as his own in the designing of the modern tunic or blouse. According to the stylist's way of thinking no color is too gorgeous, no stitchery too complex or ornate, no fabric too magnificent for the making of the blouse which is destined to shed its glory upon many a spring ensemble costume.

If you have a treasured panel of Chinese embroidery, if your friend across seas has remembered you with

Stresses Use of Plain With Print Silk.

spiration the silk print blouse, up- dating the idea in colorful design. Just too considerable interest is being manifested in silk prints which have considerable light and shade in their patterns. One can readily conceive that such a silk would be enhanced with a border of solid color and trimmings for dramatic effect.

There is great diversity of opinion in regard to silk prints. Some there are who select the most garish and bizarre patterns possible to obtain while others declare that smart style calls for quiet modest effects.

In gift of gay pattern cross-stitchery, if you have in your possession a length of colorful metal braided, board them no longer in the secret recesses of your faithful cedar chest; far better let them serve in the cause of a handsome and easily looking blouse.

For the woman of fashion who is planning a new and elaborate blouse, the models in the picture should prove inspirational. The one to the left has a panel of bold rose and blue cloth in traditional simulating a vestee form. The embroidery on the cloth and the heavy fringe do also which forms the rest of the garment is in multi-coloring.

Showing Two of the Gorgeous Blouses.

designs. It is customary a matter of course that the designer of a blouse should have a definite idea of the blouse for the evening and the day.

with a preponderance of metal thread work. Others metal chain elaborately get woven in the cloth and with a cascade of trimmings, by a cascade of trimmings, by a cascade of trimmings.

THE KITCHEN CABINET

By 1926, Western Newspaper Union. You may keep your crank for other folk. But you can't frighten me! —J. K. King.

GOOD SEASONABLE DISHES

During the cold weather, hot dishes of various kinds appeal to the taste.

Hot soups are good for either luncheon, dinner or supper, and are of such variety that the same one need not be repeated often.

Hot Chicken Salad—Mix one pint of cooked chicken cut into cubes, one cupful of salt, one-fourth of a teaspoonful of pepper, one tablespoonful of onion juice, one pint, one teaspoonful of lemon juice; set aside in a cool place for at least one hour. Make a sauce using one-fourth of a cupful of butter, the same of flour, one-half teaspoonful of salt, one cupful each of cream and chicken broth. Add the seasoned ingredients and let stand over hot water until ready to serve.

Savory Smoked Fish—Cut one pound of smoked fish into strips, put over the fire in cold water, let come to a boil, then simmer slowly for ten minutes. Heat one cupful of stock with one-fourth of a cupful each of tomato sauce and vinegar, one tablespoonful of made mustard and a few dashes of cayenne. Drain the fish, saute in a little butter with two table- spoonfuls of flour; stir this into the saucepan containing the fish and stock, cover and simmer for five minutes. Serve on a hot platter surrounded with soft and toasted crackers.

Pork chops are very good and a little unusual served with:

Tomato Celery Sauce—Chop one onion, one green pepper, a large bunch of celery. Mix two and one-half cups of tomato (which has been drained) with one and one-half tea- spoonfuls of salt, two tablespoonfuls of apple berries and two-thirds of a cupful of vinegar. Simmer for two hours. Place the apple in a small muslin bag and remove it before serv- ing. If kept some time leave the spice in the mixture.

Raisin Muffins—Beat one egg, add one cupful of sour milk, one tea- spoonful of soda, one cupful of graham flour, three tablespoonfuls of melted shortening and one-half cupful of finely cut raisins. Bake in muffin pans.

Sweets for the Children. The candy which is prepared in one's own kitchen is far superior to any other which is for the confection- ists. It is bought in any candy store. Here are a few of the best and being occasionally used the appetite clamors for sweets.

Creamy Fudge—Take one cupful each of brown and white sugar, one-half cupful of milk, one teaspoonful of butter, one-third of a cupful of corn syrup and two tablespoonfuls of cream. Boil in the soft ball stage and set away in the dish to cool. When cool stir until creamy, adding flavor- ing and nuts if desired. Spread with smooth and then put into a buttered mold and cut into squares. If apple- flavor is desired omit the cream and add apple flavoring.

Peanut Candy. Take two pounds of brown sugar, twelve tablespoonfuls of butter, put over a slow heat to melt, stirring constantly, when it has be- come thick and the time and color are right. These candy is a kind of pecan- uto candy. It is a kind of pecan- uto candy. It is a kind of pecan- uto candy.

College Nuggets. Take one pound of brown sugar and one cupful of water, boil to a soft ball, then pour over the well beaten white of an egg, beating with the mixture to remove, then add flavoring of vanilla and chopped nuts. Drop by spoonfuls on a buttered sheet before it gets too hard.

French Fondant. Take one pound of sugar and half cupful of water, two tablespoonfuls of corn syrup and one eighth of a teaspoonful of cream of tartar. Boil until a soft ball is formed in cold water. Put away to cool in the same dish or pour out on a large but- tered platter. When cool stir until creamy. When ready to eat, cut into small pieces and serve.

Fortune From Water Lilies and Goldfish

Establishment of what promises to be an important new industry for the western part of Ontario was seen the other day in the announcement of Charles W. Hayes that he has just leased a tract of five acres of land at the outskirts of the city for the establishment on a large scale of a water lily farm. He is already assured of a big market for the products of his plant. On the tract just leased are 100 inches of flowing water and the lily planting of some fifteen varieties of water lilies is now going forward in three pools on the land.

The proprietor of the establishment announced he expects to sell 15,000 plants this year. In recent years, Mr. Hayes has gained considerable fame as a "goldfish farmer," at his original plant at San Antonio Heights and in reservoirs throughout various parts of southern California. Mr. Hayes now has more than a quarter million fish. With retailing concerns alone he is now under contract to supply 2,000 fish a week and another has contracted to dispose of 10,000 a season.—Los Angeles Times.

DEMAND "BAYER" ASPIRIN

Take Tablets Without Fear If You See the Safety "Bayer Cross."

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years. Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

Britain Boosting Aviation

Great Britain appears determined to give civil and commercial aviation at least a fair chance. The latest step in this direction is the acquisition of Hendon airfield, which the government bought for £250,000. In order to centralize and control in efficient manner every branch of aviation in Britain not primarily military. Of course, Hendon is to have a military importance also. Indeed, it will become the headquarters of two squadrons of the royal air force, as well as two auxiliary squadrons scheduled as part of the London air defense force. Hendon was originally a country club for wealthy amateurs in aviation.

Freshen a Heavy Skin

With the milky, fascinating Cuticura Talcum Powder, an exquisitely scented, germicidal face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Advertisement.

Copper Finds New Uses

One of the developments of the last year is the large consumption of copper in the manufacture of electrical refrigeration machinery. It is estimated that electrical refrigeration units in 1925 will require approximately 100,000 pounds of copper, and the industry shows signs of steadily increasing expansion.

Catarrhal Disinfectant

is often caused by an unhealthy condition of the mucous lining of the bladder. It is a common complaint and is often accompanied by a burning sensation and a frequent desire to urinate. The disinfectant can be used in the form of a powder or a liquid. It is a powerful disinfectant and will kill the bacteria which cause the disease. It is a safe and effective remedy for catarrhal diseases of the bladder.

THE J. E. JONES LETTER

(Continued from page 1)

ment ship operation is that it is kept in a constant state of uncertainty and turmoil. American ships are, consequently, offered to possible purchasers under the most unfavorable conditions. The United States is "slipping" with reference to its merchant marine.

MILLER'S CASE

The United States Department of Justice is proceeding vigorously in the New York Courts in prosecuting Thomas W. Miller, former alien property custodian, whom it insists fraudulently transferred millions of dollars worth of securities in order that they might reach their German owners. It is one of the big scandals that grew out of the war.

LEGISLATIVE SCHOOL HISTORIES

The Tennessee anti-evolution law was one of the big subjects of interest to the thousands of educators who attended the National Education Association in Washington, and the opinion was very general among the delegates that state law-makers are not very good judges of what school histories should be. The "Dayton item" seems to have spread throughout the country with the result that there is a demand upon the part of some church people to make all public school histories read in accordance with the first chapter of Genesis. The educators are agreed in their declarations that there is no conflict between religion and science, and thousands of them who were in Washington stated that legislators should keep their hands off the school curriculum. They insist that it is a matter that will "work itself out" without the help of incapable legislators.

STILL KICKING

Fall and Doherty seem to be getting nearer and nearer being tried for conspiracy and bribery in connection with the leasing of the Elk Hills Naval Oil Reserve. They are claiming that the government is becoming too expensive for them, so much so they have to drag their witnesses from the far west to the courts of Washington, D. C. These gentlemen never were quite satisfied with the way the United States runs its affairs, and they do not seem to understand why it is that the courts, and the Government lawyers, persist in chasing down the managers of that little \$100,000 black bag that came from New York and into the possession of Secretary Felt. The Government seems to have won on every point of the legal battle that has been going on for the past year, and the determination to carry the matter through until there is a verdict in the criminal courts dividing the guilt or innocence of the accused is worthy of applause.

THE BOTTLE BUSINESS

Manufacturers of the glass bottle complain that there has been a great falling off in the demand for bottles since prohibition went into effect. But the bottlers refuse to admit that even this is an indication that temperance is gaining. It's hard to convince score folks.

There was an average of about 67,700,000 telephone calls a day in the United States in 1925.

When You Have Eaten Too Much

you can't help but feel dull and depressed the next morning. Before you can feel right you must help Nature to flush out your intestines.

Dr. True's Elixir

MAINE DINNER AT FELLSMERE, FLORIDA

Fellsmere, Fla., Feb. 23rd.
The second Maine dinner was held at the Library building on Wednesday, Feb. 10th. Miss Mae Wiley, Mrs. Dearborn, Mrs. Hamlin and Mrs. Frey being hostesses.

There were thirty-three present. A beautiful dinner and unending good fellowship made it a memorable occasion. Twelve of the Maine people were unable to be there on account of illness, or pressure of business, and their absence was regretted by all.

Expressions of regret for Mr. Dearborn's illness were general, coupled with rejoicings that he had passed the danger point. Mrs. Dearborn could not fulfil her part as hostess but was represented in the lovely Valentine table decorations. We were delighted to welcome Mr. and Mrs. Caron, formerly of Fellsmere, now winter residents of Kelsey City, to explore a scandal under Secretary of the Treasury Mellon by means of a Ford, Maine.

One of our townspeople said, "You Maine people are very clannish" and I am sure we do feel a greater interest in those from our own home state.

We missed many familiar faces, but they were not forgotten. A special pleasure was enjoyed in the singing of all the old familiar songs, led by Mr. Hale, with Mrs. Kinney and the Misses Knight at the piano.

We are hoping to have several more of the "Get-together" parties before our friends leave for their homes in Maine.

Those present were:

Mr. and Mrs. Frey, Mr. and Mrs. Harries, Mrs. Strout, Portland.
Mr. and Mrs. Legro, Peaks Island.
Mr. and Mrs. Ashley, Boston.
Mr. and Mrs. Caron, Mrs. Walcott, Kelsey City and Rumford, Me.
Miss E. Davis, Norway.
Miss Mae Wiley, Mr. and Mrs. P. Hamlin, Mr. and Mrs. D. Lovejoy, Bethel.

Miss Florence Knight, Miss Grace Knight, Wiscasset.

Mrs. Viola Roberts, Hanover.
Mr. Dillingham, Mr. Trask, Dixfield.
Mr. and Mrs. P. E. Hale and daughter, Mr. and Mrs. Roy Kinney and son, Mr. and Mrs. G. E. King, Mrs. M. A. Stevens, Mrs. Dorothy Holmden, Tallmadge.

We doubt if any two towns—with the length of the continent between—were brought into closer contact than Bethel, Me., and Fellsmere, Florida.
